

ZOOM Ocean

A colorful and diverse realm for play and adventure for toddlers and preschoolers

With ZOOM Ocean, ZOOM Children's Museum offers a **unique area for play and experience** that is especially catered to the motor, cognitive, and social abilities of children from 8 months to 6 years in age.

Since 2002, nearly 500,000 sailors big and small have taken to sea in our steamer *Famosa* and experienced exciting adventures. They have explored caves, gone on fishing expeditions, set the weather rotator in motion, and sent messages to the lighthouse.

Famosa drops anchor in Central America. In the green, mysterious habitat of jaguars, armadillos, chameleons, tapirs and other exotic animals the children can use costumes to transform themselves into colorful rainforest creatures.

There are special dates where toddlers from 8 months to 3 years of age can explore ZOOM Ocean in an environment that is tailored to meet their special needs. For children ages six and older, there are special older sibling days. For children ages 4 and up in preschool or kindergarten, ZOOM Ocean offers workshops for early science education.
